LADDER DIMENSIONS

1. Working height is the approximate height that you would like to be able to comfortably reach. It is usually calculated at 5.5’ above the ladder’s platform height.

2. Overall height is VERY important. You want to be sure that your ladder will not be too tall to fit into your workspace. This includes being able to fit through any doors that you may need to move it through, or under any ceilings or fixtures that you may have.

3. Top Step height is the measurement of the top step from the ground. It’s important that this measurement is not too far above or below your desired working height.

4. Base length is the measurement of how long the base of the ladder runs. This is dependent upon the height of the ladder. The taller the ladder, the longer the base.

5. Base width is important to be sure that the ladder will not be too wide for your workspace.

TREAD TYPES

1. Perforated (A6) Steel Only
2. Vinyl (A2)
3. Serrated (A3)
4. Perforated (A10) Aluminum Models only

Folding Rolling Ladders

steel

SAS3A2
(RED C6)

zero assembly time.
**THE COTTERMAN® StockNStore™** This lightweight ladder easily folds into a compact assembly for quick rolling movement and storage. In use, the ladder opens smoothly during the transition from rolling to setting down on rubber feet. The hinges automatically lock in place. For added convenience, the ladder tilts and rolls in the open as well as closed position.

- 350 lb. load rating.
- Available in 2, 3 and 4 step models, all with 16" wide by 7" deep steps and 10" deep top step.
- Easily folded in one simple motion.
- PVC coated aircraft cable release system.
- Rolls in folded form or in setup form.
- Compact and easily stored.
- Gray powder coat finish is standard. Available in a variety of colors.
- Three tread types available.
- 4" casters.
- 30" handrails.
- Ships parcel freight.
- StockNStore™ ladders meet applicable OSHA and ANSI standards.

FOLDS FLAT FOR COMPACT STORAGE ALMOST ANYWHERE!
THE COTTERMAN® ALUMINUM StockNStore™ ladder provides all of the advantages of the steel StockNStore™, but with lightweight aluminum construction. The Aluminum StockNStore™ is ideal for tight spaces where quick, easy access and quick, easy storage are required.

- 350 lb. load rating.
