OFFICE LADDERS

Choose the Color...

Choose the Handrail Configuration.

Cotterman MasterStep rolling steel office ladders combine industrial strength, professional appearance, and dependable safety for use in offices, stockrooms, shops, and light industrial environments.

Built with a tapered frame and oversized caster housings, MasterStep ladders deliver excellent stability during use while remaining easy to maneuver. Every ladder is designed with Cotterman's commitment to quality, providing a durable, attractive solution that stands up to daily use.

Available in one through six-step models, MasterStep ladders can be configured with a single- or double-deep top step and left, right, or dual handrail arrangements to fit your workspace. Easy-rolling, spring-loaded swivel casters provide smooth mobility with quick start-and-stop control, while ribbed vinyl-covered steps offer secure, comfortable footing.

- 56 degree climb angle.
- 450 lb. load rating.
- 2" diameter all swivel spring-loaded casters.
- Durable welded 1" square steel tube construction.
- Choice of 8" single deep or 14" double deep top step.
- Powder coat finish.
- Color choice of light gray, beige, black, green, red, white, blue, or brown.
- Handrails require assembly.
